

# Factsheet

## SMART Board™ interactive whiteboard

### Productivity tools go beyond desks

To be productive, groups need to use networks, files and websites – no matter where they are. Put this information at your group's fingertips with the SMART Board™ interactive whiteboard, so groups can work with the information they need, when they need it.

The SMART Board interactive whiteboard connects to your computer and a projector. With the touch of a finger, group members can interact with computer materials and their finger becomes the mouse. They can write over anything with digital ink and save their notes to a single file for easy distribution. They can wirelessly connect laptops and transfer control of the interactive whiteboard between users.

Upgrading your SMART hardware is easy. The expansion slot allows the addition of other SMART products, such as the SystemOn button, ensuring that as the organization grows, the SMART Board interactive whiteboard grows with it.

### Put it to work for you

How can it help your organization? That depends on what you do.

Project managers capture progress notes and track decisions, then save the notes and e-mail them to stakeholders as a progress update. Designers use it to present plans to clients and incorporate their feedback immediately, saving valuable time during the design process. Fire departments create training simulators – ensuring staff receive realistic but safe training. Lawyers grab jurors' attention and help them understand evidence by presenting and interacting with the material. No matter where you are and what you do, the SMART Board interactive whiteboard can help maximize productivity.

"We believe with the SMART Board interactive whiteboard we've overcome the biggest challenge faced by lawyers. Juries are absolutely on the edge of their seats watching the information come to life. Evidence is no longer just heard. It's heard and seen."

## Dimensions

### Active screen size

#### Wide format

<b>Model</b>	<b>area (diagonal)</b>
<b>690</b>	94" (238.8 cm)
<b>685</b>	87" (221.0 cm)

#### Standard format

<b>Model</b>	<b>area (diagonal)</b>
<b>680</b>	77" (195.6 cm)
<b>660</b>	64" (162.6 cm)
<b>640</b>	48" (121.9 cm)

## Features

- 1** Touch-sensitive surface
- 2** Expansion slot
- 3** Pens
- 4** Eraser
- 5** On-Screen Keyboard, right mouse and help buttons
- 6** SMART Pen Tray
- 7** USB connection

## Key features

- **Touch system** – Write, erase and perform mouse functions with your finger, a pen or an eraser – you need no proprietary tools.
- **SMART Pen Tray** – Pick up a pen or the eraser, and the pen tray automatically detects which tool you've selected. Buttons activate the On-Screen Keyboard, the right-click and help functions.
- **Digital ink** – Write in digital ink over applications, websites and videos.
- **Save function** – Capture your work to SMART Board software as a screen shot that you can edit, or save your notes directly into several software applications, including Windows® versions of Microsoft® PowerPoint®, Word and Excel®, or into AutoCAD® software.
- **Durable surface** – The hard-coated polyester surface is tear proof, optimized for projection, compatible with dry-erase markers and easily cleaned with whiteboard cleaner.
- **Active screen size** – Available in three standard sizes or two wide-screen formats.
- **Wall-mount bracket** – Install your SMART Board interactive whiteboard simply and securely.
- **USB cable** – Connect the SMART Board interactive whiteboard to your computer.
- **Expansion slot** – Use this interface to add future hardware, such as the SystemOn button.
- **Warranty** – Five years upon product registration, two years standard.

## Optional accessories

- **USB speakers** – Two 15-watt, stereo-amplified speakers, with a two-port USB hub, that mount to the SMART Board interactive whiteboard or on the wall.
- **Wireless Bluetooth® connection** – Connects your computer via USB and Bluetooth technology.

## SMART Notebook software

Create, manage and save materials into a single, presentation-ready file. Export files to clients and colleagues. Integrate digital content, such as Adobe® Flash® files and audio and visual components into presentations. Arrange pages using the Page Sorter. Use Dual Page Display to view two pages simultaneously. You can draw, take notes, attach files, or link to objects and websites on either page.

### SMART Tools

- Type with the On-Screen Keyboard, make a video file with the SMART Recorder, write over video using the SMART Video Player, and focus and prioritize concepts with the Screen Shade and Spotlight.

### Ink Aware

- Use a pen from the pen tray or a Pen button to write into Ink Aware applications, such as Microsoft Excel, PowerPoint slides, Word files and AutoCAD, and save notes directly into these files.

### LinQ™ software

- Connect quickly between devices using a wired or wireless network. Use a laptop to share files and control applications on the interactive whiteboard (and vice versa).

### Software system requirements

- Supports Windows, Mac OS and Linux® operating systems.
